1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claims 1 and 35 recite the apparatus and the method of providing a receptacle and a backing of flexible film secured to the outer perimeter rim of the receptacle. There is adhesive on the backing. Finally, the backing has a hinged cover having a portion bordered along opposite side edged by cuts (53,54) through the film. The newly cited reference to Scott et al does show the backing 22 on the rim of the receptacle 12 by adhesive 42 (figure 2), but there are no cuts on opposite side edges of a cover formed by the backing. Scott et al's backing is merely attached to the receptacle as a separate element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
